A title page and an index for volume 26 is bound in the center of this issue.	

Xerox introduces Push-Button Copying of Catalog Cards.

Now you can reproduce catalog cards
in seconds with the Xerox 914.
You can copy four different cards at once
and make any number of copies you want.

"It's so quick
and easy."

Here's how you copy
catalog cards in seconds.

All you need are the originals and stand-
ard card stock.

1. Just load the card stock into the Xerox
914 and push a button.

2. Place the catalog cards in this special holder so the cards will be positioned properly on the scanning glass.

3. Dial the number of copies you want and push another button.

Now, just stand there. The Xerox 914 does the rest.

The 914 will even copy worn and frayed cards and make copies that are often better than the originals.

If you want to make a change on a catalog card, you merely dab on Xerox Snopake correction fluid and type in any changes.

The Xerox 914 never makes a mistake. Every copy is an exact copy. No more proofreading.

If this is the only job the Xerox 914 did for you, you'd be 'way ahead. But there's more. Much more.

Eliminate typing overdue book notices.

Many libraries that have a 914 copier are converting to a new system that identifies borrowers of overdue books as well as the books themselves.

To borrow a book, a reader fills out a borrowing card with his name, address and details of the book.

When the due date rolls around, the borrower and the book are instantly identified from the information on the borrowing card.

Simply mail a xerocopy of the borrowing card to the borrower.

Compare this method with the method you are now using. You may be surprised by the amount of time and money you save.

Cut down outside printing.

Most libraries need a mountain of material copied in a year. Everything from administrative memos and telephone directories to bulletins and acquisition lists.

The Xerox 914 can handle these routine copying jobs quickly and economically.

How much will all this cost?

You don't have to buy the machine. All you have to pay Xerox for are the number of copies you make, based on a minimum number of copies per month. Plus a small monthly rental.

What if you're opening a new branch?

You'll need a complete set of new cards. Xerox will do this job for you in a fraction of the time and cost it usually takes.

Fill out the coupon and we'll send you free of cost our new 24-page booklet "Xerox Systems and Services for Librarians."

Considering the amount of material your library has to have copied every day, it only makes good sense for you to get in touch with the people who make the most advanced copying machine in the world.

With a finger

and this charging machine...

You get the student's name, address (home or campus), identification number, expiration date, and due date...all at once

Demco's new electric charging machine benefits both the library staff and the borrowers. Charges are made accurately, quickly and quietly at a speed that improves library service. And it's so easy to operate, an inexperienced assistant can handle routine charging without problem.

It's versatile, too. Can be adapted to your present system . . . to utilize the forms and supplies you are now using . . . and perform whatever charging routines you want.

- Any one of 4 multiple due dates automatically printed.
- Positive borrower identification through use of embossed plastic identification cards.
- Positive control—eliminates errors.
- Fast, quiet, electric operation.
- Uses your existing book cards, forms or slips.

With a Demco Charging System you can always determine where a book is.
